Allowable Subject Matter

Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-7 are allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit comprising, among other limitations and unobvious limitations of "the plurality of voltage control means including at least a first voltage control means and a second voltage control means being responsive to a voltage source such that the minimum voltage source output at which the first voltage control means produces an output voltage is less than the minimum voltage source output at which the second voltage control means produces an output voltage" structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
